## Mobile Employee Health Screening

**modjoul**

### Why product (benefits)?

- Easy to use, employees can screen themselves in 3 seconds or less
- Accessible from anywhere, built for remote access to reduce contact
- Immediate notifications for potentially sick individuals
- Web based dashboard for deeper analytics and response tracking
- Automated data exports for daily screening responses sent directly to you via email

### Product Overview

---

Every company has had to adjust to the new normal brought on by the Coronavirus pandemic. Companies that cannot work from home are required to screen employees to ensure they maintain a healthy working environment, and since the outbreak began, most employers have struggled to efficiently conduct this screening.

Modjoul Health is designed to automate the employee screening process, helping companies stay productive as they welcome their employees back to the workplace safely. Using customizable screening questionnaires, Modjoul allows every company to ask the questions that are most important to them to ensure their employees are appropriately screened for symptoms and exposure to COVID-19.

### Product features

#### Customizable questionnaire

- Screening guidelines can vary depending on your location and industry. Maintain compliance with Modjoul Health custom questionnaires. Ask the questions that matter for your employees.

#### Multiple Administrative Views

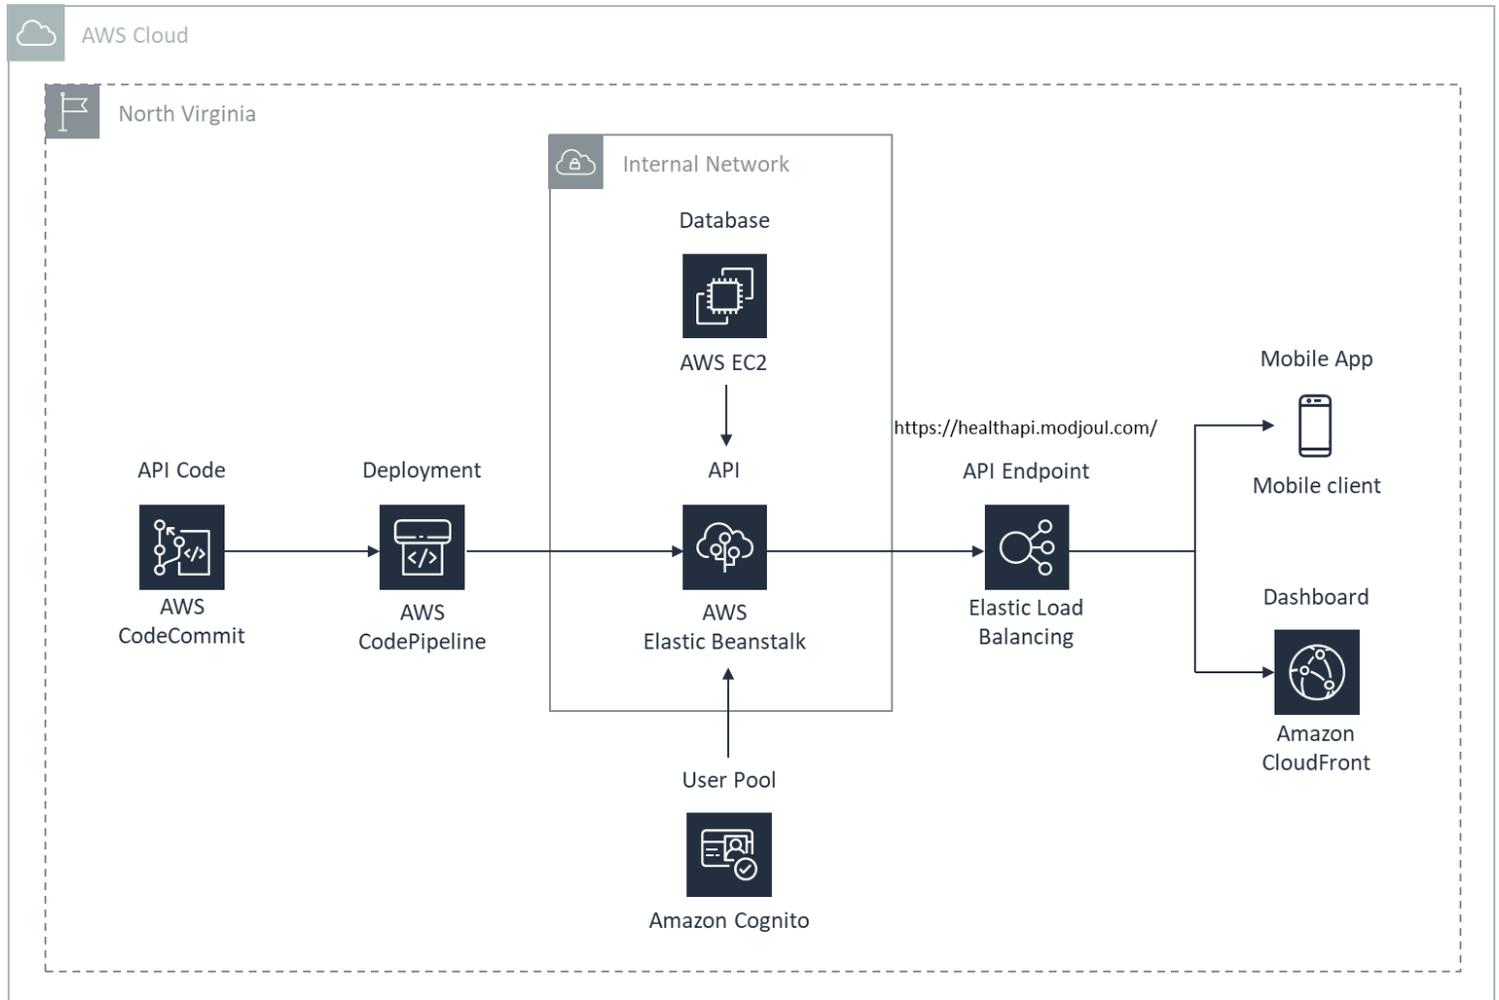

- Modjoul Health is built to scale with your business. Whether you're a local restaurant or a fortune 500 company, Modjoul can structure the application to fit your organizational hierarchy.

#### Real Time Alerts

- Receive a notification immediately when any of your employees indicate that they may cause an exposure risk for your organization. Modjoul Health also allows organizations to pass along next steps to potentially infected individuals such as contacting HR or a medical provider for testing.

## How it works

Employees use the Modjoul Health mobile application via their cell phone to screen themselves for symptoms and exposure to COVID-19. Modjoul Health eliminates the burden of employee health screening by automating the crucial record keeping process and implementing custom screening questionnaires that securely file screening responses.

## Differentiators

- Customizable questionnaires allow for complete flexibility in screening format
- Mobile first solution that allows employees to remotely screen themselves before they come onsite

## What our customers are saying

*I have no doubt that the ability to promote our due diligence in health and safety is a factor and Modjoul is a big part of that*

- Kari Jacob, Director of Human Resources, Lombardi Family Concepts
