Accelerate Your SAP Migration with a Proof of Concept, on AWS
Delphix Consulting Offer

Begin your SAP migration on AWS with Delphix FAST+

FAST+ from Delphix streamlines and accelerates the process of migrating SAP applications and data. The approach leverages Delphix Dynamic Data Platform to enable teams to effortlessly move terabytes of SAP data to AWS, and then provision virtual SAP environments to support integration testing, go-live rehearsal, and ongoing development projects.

Benefits

- Accelerate migration of SAP applications to AWS 50% faster than traditional/ legacy data replication and migration methodologies

- Improve security of sensitive data in the cloud and meet regulatory compliance

- Go live with greater confidence by comprehensively testing cycles and cutover rehearsals

- Streamline ongoing process customization, system and application integration, and development efforts once you've migrated to AWS

AWS Services Supported

- Amazon EC2, Amazon EBS, Amazon S3

"Delphix transforms how we use AWS and increases our development velocity. When we implemented the Delphix platform within our hybrid cloud architecture, we immediately increased our ability to scale to meet new business requirements." —Dentegra Insurance Company

Key Activities

Connect and Replicate: Move on-premises data in SAP HANA, Oracle, IBM Db2, Microsoft SQL Server, SAP ASE, and other databases to AWS without impacting production operations

Virtualize: Compress and virtualize data to reduce bandwidth and storage requirements throughout the migration process

Secure: Identify sensitive data and automatically apply data masking solution purpose-built for SAP

Manage: Quickly replicate fresh and secure virtual data on AWS whenever it's needed with functionality to audit, monitor, and report against access and usage

Control: Synchronize data from SAP and non-SAP sources, provision, bookmark, and rewind virtual SAP environments for data conversion, integration testing, and mock cutover

Customer Ready Solutions

Discover scalable and secure solutions that will empower you to achieve your business needs with Amazon Web Services (AWS) and AWS Partner Network (APN) Partners that have attained AWS Competency designations. Customer ready solutions are based on architectures validated by AWS, include a combination of AWS services and APN Partner technologies, can be deployed quickly with solution accelerators like AWS Quick Starts, and feature optional consulting offerings provided by APN Partners, to accelerate your cloud transformation.
