Accelerate Your Kubernetes Implementation on AWS with Heptio Consulting Offer

Unlock the full potential of container orchestration

Adopt Kubernetes on Amazon Web Services (AWS) with Heptio Kubernetes Subscription (HKS). HKS includes products, training, professional services, and support to simplify your implementation of Amazon Elastic Kubernetes Service (Amazon EKS).

Benefits

- Access validated designs and expert guidance so you can efficiently deploy Amazon EKS
- Begin by running your clusters in Amazon Elastic Compute Cloud (Amazon EC2) and Amazon EKS, or migrate them from existing platforms
- Experience a strong baseline solution built on open-source technology with the flexibility, customization, and support your business needs
- Avoid the risk and cost of lock-in to a legacy distribution

Customer contribution

- Identify goals for Kubernetes deployment
- Create one or more supported configurations of Kubernetes up to 25 nodes for a proof-of-concept (PoC)
- Stand up Kubernetes on AWS and Amazon EKS clusters for use in production

Key activities

Leverage validated designs, community tools and expert guidance to deploy reliable, highly available Kubernetes clusters on AWS.

Work with Heptio experts to assess the best cloud-native technologies to integrate with your environment and meet business needs.

Lean on 24/7 support to resolve problems, issue patches, and integrate solutions into upstream Kubernetes to benefit the community.

Customer ready solutions

Discover scalable and secure solutions that will empower you to achieve your business needs with Amazon Web Services (AWS) and AWS Partner Network (APN) Partners that have attained AWS Competency designations. Customer ready solutions are based on architectures validated by AWS, include a combination of AWS services and APN Partner technologies, can be deployed quickly with solution accelerators like AWS Quick Starts, and feature optional consulting offerings provided by APN Partners, to accelerate your cloud transformation.
