

# Amazon WorkSpaces Solution Toolkit by Olikka

Access your desktop anywhere, anytime, on a fully managed, enterprise-grade, desktop-as-a-service (DaaS), with Amazon WorkSpaces and Olikka

OLIKKA

Olikka is an AWS Partner Network (APN) Partner with validated Amazon WorkSpaces capabilities.

## Industry trends & challenges

The increasing number of devices is changing the IT landscape significantly. Today's employees want a high quality desktop experience they can access anywhere, and on any of their devices.

Implementing a bring your own device (BYOD) strategy or moving to an on-premises VDI solution is not only expensive to set up, but difficult to scale and complex to manage securely.

## The Olikka solution

Olikka brings several years of rich virtual cloud desktops experience to help its customers migrate efficiently to Amazon WorkSpaces – a fully managed, cloud-native, secure, DaaS offering.

Olikka's proven methodology – focused on end-user experience, applications, security, and infrastructure, coupled with its Amazon WorkSpaces "Toolkit" enables you to gain greater visibility, better monitoring, and improved manageability of all your available Amazon WorkSpaces.

## Benefits

Olikka with Amazon WorkSpaces provides you with an easy, cost-effective way to bring a secure and broadly accessible desktop experience to your users.

### Enhanced End-User Experience

Olikka's proven methodology helps deliver high quality, fully managed, portable desktops and applications, to users on the device of their choice.

### Better Availability of Applications

Olikka helps integrate applications – one of the main components of your Amazon WorkSpaces, seamlessly with your existing processes so that they are more easily available.

### Improved Security

Olikka's methodology helps interweave security into all aspects of your Amazon WorkSpaces, including multi-factor authentication (MFA), encryption settings, OS hardening, and security support requirements.

### Minimal to No Infrastructure

Amazon WorkSpaces requires only the supporting infrastructure to function. Olikka's proven methodology helps you identify and configure the right hardware/software services bundle that meets the needs of your users.

# Solution space

Discover scalable and secure solutions that will empower you to achieve your business needs with Amazon Web Services (AWS) and APN Partners. Customer ready solutions are based on architectures validated by AWS, include a combination of AWS services and APN Partner technologies, can be deployed quickly with solution accelerators like AWS Quick Starts, and feature optional consulting offerings provided by APN Partners, to accelerate your cloud transformation.

## Solution overview

### Olikka's Proven Methodology and Amazon WorkSpaces Toolkit

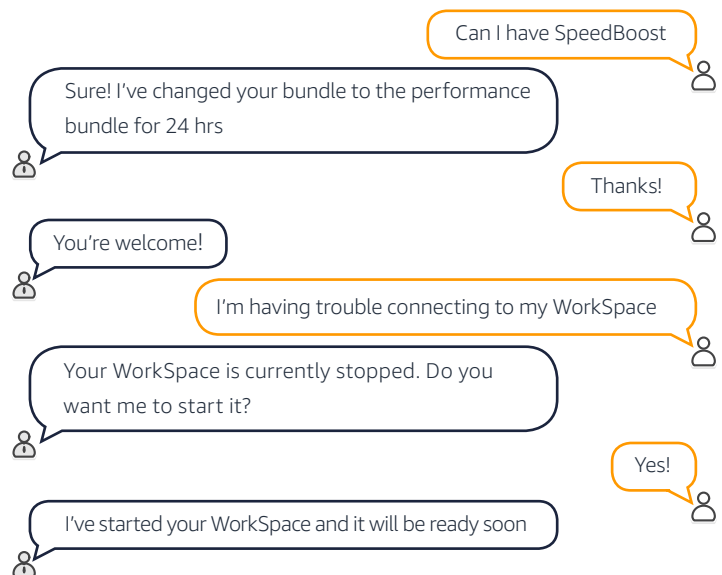

#### Olikka's Proven Methodology

- **End-User Experience:** Focuses on delivering an amazing end user experience therefore all elements of Amazon WorkSpaces solution are designed and built with performance and ease of use in mind.
- **Applications:** Ensures that applications are available, are easily and reliably delivered and integrate with your existing processes is key to ensuring a successful Amazon WorkSpaces solution.
- **Security:** Helps interweave security into all aspects of Amazon WorkSpaces including integrating multi-factor authentication (MFA), encryption settings, OS hardening, and security support requirements.
- **Infrastructure:** Configures only the supporting infrastructure for your Amazon WorkSpaces with service bundles that meet your needs.

## How it works

### Olikka's Amazon WorkSpaces Toolkit

- **Automated Provisioning:** Control provisioning and de-provisioning of all your virtual desktops by simply adding or removing a user from an active directory group.
- **Amazon WorkSpaces Insights Dashboard:** Obtain full visibility with a dashboard that provides a high-level overview of your Amazon WorkSpaces environment including the number of connected machines, ping time response of each machine, and the ability to reboot a virtual desktop.
- **Amazon WorkSpaces Helper:** Chat with Olikka's self-service chat bot powered by artificial intelligence (AI), called Ollie to get help with any issues you may have with your Amazon WorkSpaces.

## Getting started

Connect with Olikka to discuss how they can help you simplify your on-premises or virtual desktop infrastructure (VDI), by implementing Amazon WorkSpaces:
