

# Protera FlexBridge SAP Cloud Migration Acceleration Platform

## Plan for your SAP, SAP HANA, S/4HANA Migration to Amazon Web Services (AWS) with Protera Technologies

Protera Technologies is an AWS Partner Network (APN) Partner and holder of the AWS SAP Competency.

### Industry trends & challenges

Many organizations currently running SAP® ERP are planning on transitioning to SAP HANA® or S/4 HANA® on Amazon Web Services (AWS). However, there is a lot to consider when moving your workloads to the new SAP HANA platform and offerings. Many customers need trusted advisors with proven methods to navigate the current tools, best practices, and key learnings necessary to implement and migrate complex SAP architectures.

### The Protera solution

Formed in 1998, Protera Technologies is a global certified SAP Partner and an AWS Advanced Consulting Partner holding the SAP Competency Badge. We deployed our first SAP reference running on AWS in 2011 and have since helped a large number of customers of all sizes and across all industries to take advantage of SAP solutions on AWS.

Over time, we saw the need to create tooling and automation solutions for the common use cases we encountered when helping SAP customers. That's why we created Protera FlexBridge and Protera AppCare- our flagship services delivery platforms designed for the migration to and operation in AWS of any SAP and enterprise IT workloads.

### Benefits

Leveraging Protera's FlexBridge Migration Acceleration Platform helps you analyze the migration readiness of your current SAP systems and receive an automatically generated cloud migration plan customized to your SAP landscape.

80%

**Shortened Cloud Migration Downtime Window By 80%**

Automated processes and only one project downtime

50%

**Reduced Migration Project Cost by More Than 50%**

Migration project plan optimized by automation and SAP best practices

50%

**Increased Data Quality By 50%**

Automatic detection and correction of known errors

70%

**Faster SAP HANA and S/4HANA Migration Projects by 70%**

Upgrades and projects can be executed concurrently during cloud migration

# Solution Space

Discover scalable and secure solutions that will empower you to achieve your business needs with Amazon Web Services (AWS) and AWS Partner Network (APN) Partners that have attained AWS Competency designations. Customer ready solutions are based on architectures validated by AWS, include a combination of AWS services and APN Partner technologies, can be deployed quickly with solution accelerators like AWS Quick Starts, and feature optional consulting offerings provided by APN Partners, to accelerate your cloud transformation.

## Solution overview

### Protera FlexBridge SAP Cloud Migration Acceleration Platform

Protera offers a complimentary migration readiness assessment to understand your path to AWS. After running FlexBridge Cloud Readiness Platform against your current SAP environment, we will generate our high-level findings in a report that will include current performance, usage metrics, and recommended migration plan to AWS. This free assessment allows the SAP customer to understand how to create a comprehensive migration roadmap using the guidance of certified SAP experts from Protera.

### Protera on AWS

Since our first customer deployment on AWS in 2011, we have helped SAP customers of all sizes and across all industries to take advantage of SAP offerings on AWS. Protera has built tooling and automation solutions for the common use cases we encountered, enabling SAP customers to leverage the benefits that AWS offers.

## How it works

## Getting started

Get started with your free migration assessment by completing the form and a cloud migration expert will be in touch with you shortly.

About AWS: For 10 years, Amazon Web Services has been the world's most comprehensive and broadly adopted cloud platform. AWS offers over 100 services for compute, storage, databases, analytics, mobile, Internet of Things (IoT) and enterprise applications from 49 Availability Zones (AZs) across 18 geographic regions in the United States, Canada, Europe, Asia, Australia and South America. AWS services are trusted by more than a million active customers around the world – including the fastest growing startups, largest enterprises, and leading government agencies – to power their infrastructure, make them more agile, and lower costs. To learn more about AWS, visit <http://aws.amazon.com>.
