

Fully reimbursable, flat-assessment fee [USD \$10,000] to finalize fixed implementation price | Global

SAP S/4 Move Xperience on AWS - implementation accelerator for the engineering & construction industry with LTI

Consulting offer

Create your enterprise construction operations platform in days

Accelerate your S/4 HANA project with the combination of SAP software, AWS, and LTI's experience in the engineering & construction industry to create a fully integrated, digital construction enterprise platform in less time than you would expect.

Benefits

- **Provision production-ready landscapes in hours:** LTI uses AWS HANA Quick Starts and CloudFormation templates to get your landscapes up and running in hours, instead of weeks.
- **Modernize business and field operations:** Bring all your operation silos into a single, agile, enterprise-ready management platform, purpose-built based on engineering & construction customer requirements.
- **Receive AWS credits for your project:** Leverage AWS credits to remove the infrastructure cost from your proof of concept (POC) project.
- **Experience and explore SAP on AWS:** Use fully patched and SAP certified S/4 HANA production-ready landscapes to better enable your DevOps, automated managed services, third-party application integration, and more.

Key activities

Register your project – Use the “Get Started” button to alert AWS and LTI that you'd like to give this a try.

Ready your team – We will engage with your project team to get quickly organized, and help you get underway. With just a few questions to answer regarding your sizing, connection requirements, network landing zone, and any technical standards you require, is all we need to start your automated private deployment.

Get your plan ready – We will help you draft an initial plan to ensure that you can get the full benefit from your proof of concept.

Customer contribution

- Help define the relevant business use case(s)
- Provide licenses when required for SAP or non-SAP applications within scope
- Participate and contribute in defining your business, SAP, and AWS technical requirements –Help assess the final POC and prepare and present an executive summary to stakeholders

Solution Space

Discover scalable and secure solutions that will empower you to achieve your business needs with Amazon Web Services (AWS) and AWS Partner Network (APN) Partners that have attained AWS Competency designations. Customer ready solutions are based on architectures validated by AWS, include a combination of AWS services and APN Partner technologies, can be deployed quickly with solution accelerators like AWS Quick Starts, and feature optional consulting offerings provided by APN Partners, to accelerate your cloud transformation.
