

2 Days of SIOS Professional Services | Free | Global

## Protect your SAP Applications and Data with SIOS Protection Suite for SAP optimized on AWS Consulting Offer

### Explore High-Availability, SANLess Clustering for SAP Workloads on AWS

This SIOS SAP Consultancy Offer includes a no-charge availability assessment and introduction to high-availability (HA) designs for SAP on AWS. The services include an assessment, expert training, configuration, and installation of SIOS Protection Suite for SAP and SAP HANA on Amazon Web Services (AWS). Customers who choose to purchase additional SIOS services after completing this assessment offering are eligible for a 50% discount on the SIOS quickstart deployment service, comprised of 2 days of professional services representing a total savings of over \$3,000.

#### Benefits

- Understand considerations, tradeoffs, and benefits of various HA configurations
- Avoid issues associated with poor configuration designs, technology, and deployment choices
- Train your team to get your SAP services up and running fast and reliably in AWS
- Learn from SIOS' expertise in deploying HA for SAP and SAP/HANA in AWS

#### Customer Contribution

- Identify service level expectations for applications and environment to be protected
- Provide current environment, proposed technology, and initial design topologies
- Describe project timeline and expectations

#### Key Activities

Up to 2 days of SIOS Professional Services covering these activities:

**Availability needs assessment** and introduction to HA technology tradeoffs and reference architectures

**Design, configuration, and installation** of SIOS HA components for SAP

**Testing and verification** to assure correct and reliable operations

**Training** for your team

#### Solution Space

Discover secure, scalable solutions that help you achieve your business needs through a combination of AWS services and Amazon Partner Network (APN) Partners that have attained AWS Competency designations. Based on architectures validated by AWS to accelerate your cloud transformation, you can deploy solutions quickly with AWS Quick Starts and optional Jumpstart consulting offers provided by APN Partners.
