Transform your business resiliency posture with Sungard AS on AWS

Consulting Offer

Protect your business with Cloud Recovery - AWS by Sungard AS

Sungard Availability Services (Sungard AS) plans, builds, and manages near-time replication and recovery on Amazon Web Services (AWS). Skilled technical architects understand your disaster recovery (DR) requirements and how to translate them into a managed, resilient solution running on AWS. Leveraging this offer will deliver a robust solution through Sungard AS' proven onboarding methodology. The final solution will help ensure all recovered servers are available and ready at time of test (ATOT) and at time of disaster (ATOD).

Benefits

- A proven DR planning and onboarding methodology leveraging 40 years of Sungard AS experience and AWS best practices
- Key insights to better analyze and plan DR
- Easier production workload alignment within AWS
- Complete DR AWS solution, including networking
- Utilize Sungard AS' skills and knowledge of DR, AWS, and application recovery
- Creation and management of custom recovery script

Customer contribution

- Make key stakeholders available for discovery workshops.
- Install agents on all workloads to be replicated and ensure workload connectivity.
- Make users available to perform User Acceptance Testing.
- Agree to be a public reference for AWS and Sungard AS

Key activities

Finalize scope and customer design requirements based on customer's desired outcome and current environment characteristics.

Validate the solution and build out the AWS environment, network connectivity, and configuration of replication software.

Install agents, configure recovery plan and settings, and initiate replication.

Perform ATOT test post replication, signoff from customer, and benchmark recovery time objective (RTO).

Experience ongoing proactive support and administration of replication from production source servers to AWS replication Amazon Virtual Private Clouds (VPC) in steady state.

Near real-time recovery point objective (RPO) and a four-hour service-level agreement (SLA) RTO.

Solution Space

Discover scalable and secure solutions that will empower you to achieve your business needs with Amazon Web Services (AWS) and AWS Partner Network (APN) Partners that have attained AWS Competency designations. Customer ready solutions are based on architectures validated by AWS, include a combination of AWS services and APN Partner technologies, can be deployed quickly with solution accelerators like AWS Quick Starts, and feature optional consulting offerings provided by APN Partners, to accelerate your cloud transformation.
