

Four weeks | No Cost to you

End-User Computing on AWS with Nuvens Consulting Offer

Deploy an Amazon WorkSpaces and Liquidware Proof-of-Concept (POC) Solution

Quickly set up an environment that will allow your IT team and end-users to access Amazon WorkSpaces from anywhere in the world.

Benefits

- Quickly deploy Amazon WorkSpaces POC solutions that follow AWS best practices
- Leverage Liquidware Stratusphere, ProfileUnity, and FlexApp for enhanced performance metrics and desktop management capabilities
- Minimize costs with Amazon WorkSpaces Cost Optimizer

Customer Contribution

- Decide how many desktops need to be deployed as part of the accelerator
- Determine which applications you would like to test/package (Up to 5)
- Provide users for testing

Key Activities and Outcomes

Deploy from a wide range of Amazon WorkSpaces bundles from small and inexpensive to powerful, GPU-enabled desktops

Provision Windows 7 or Windows 10-enabled desktops in minutes

Enable BYOD for end users and provide secure network access to users

About Nuvens

Nuven are a UK based, Amazon Web Services (AWS) Advanced Partner. The consulting firm specialises in the end to end delivery of Amazon WorkSpaces to SMB and SME financial and services markets, with complimentary technologies to optimise the virtual desktop environments.

Customer Ready Solutions

Discover consulting and managed services offers that can help you achieve your business needs with scalable solutions from APN Consulting Partners that have validated their consultation capabilities with AWS.
