

# Ellucian

AWS PARTNER NETWORK (APN) HIGHLIGHT

## Who is Ellucian?

Ellucian helps educational institutions modernize with cloud solutions built for organization transformation, student engagement, and student success. We partner with colleges and universities to create a more connected, efficient future in the cloud with architecture that is resilient and designed for a changing world.

### APN Advanced Technology Partner

APN Technology Partners provide hardware, connectivity services, or software solutions that are hosted on, or integrated with, the AWS Cloud.

### Propel institutional success

Automating cumbersome administrative tasks that hold schools back, Ellucian Cloud solutions are designed specifically to transform your institution, its achievements, and its future.

### Elevate faculty engagement

Ellucian Cloud frees your faculty and employees to reengage and refocus on what's truly important: campus, faculty, student, and organizational success.

### Empower all student experiences

Deliver richer, more flexible, always-on learning experiences tailored and personalized to your students' exact needs, allowing learners from every background to excel.

Uniquely architected for higher education, Ellucian Cloud allows leaders to refocus resources on providing the engaging, holistic experience now demanded by a modern student audience.
