

Canvas

AWS PARTNER NETWORK (APN) HIGHLIGHT

Who is Canvas?

The **Canvas Learning Management Platform** is an open, extensible learning ecosystem designed to deliver the digital foundation for schools of all sizes. Admins and educators can easily integrate the systems and apps they need to support students—both in the classroom and fully online. Canvas simplifies teaching, elevates learning, and creates strong connections between educators and learners.

APN Advanced Technology Partner

APN Technology Partners provide hardware, connectivity services, or software solutions that are hosted on, or integrated with, the AWS Cloud.

Simple

Canvas is easy to learn and enables rich, engaging courses for millions of students and teachers across 70 countries for a simpler, more connected learning experience.

Open

Open APIs, open source code, and deep LTI integrations deliver seamless connections with all of your favorite learning tools, enabling streamlined student experience.

Reliable

Born in the cloud, Canvas was at the forefront of the SaaS revolution in education technology, and the relationship with AWS offers scalability and reliability, boasting a 99.9% percent uptime.

Open, intuitive, and born in the cloud, Canvas streamlines all the digital tools and content that teachers and students love, driving students' learning experiences into the modern age.
