

Enquizit

AWS PARTNER NETWORK (APN) HIGHLIGHT

Who is Enquizit?

Enquizit has been providing technology services for more than 18 years to higher education and government institutions. They specialize in cloud migrations and optimizations with large-scale, mission-critical systems, using their flagship migration framework Skymap™ to help deliver projects successfully on time—and within budget.

APN Advanced Consulting Partner

APN Consulting Partners are professional services firms that help customers of all types and sizes design, architect, build, migrate, and manage their workloads and applications on AWS, accelerating their journey to the cloud.

AWS Education Competency

Enquizit is a pioneer on agile, open source, full stack development and DevOps in the education sector, delivering high-quality results at a consistent pace.

AWS Migration Competency

Enquizit helps clients to seamlessly migrate on-premises workloads to the cloud without compromising security or performance, thanks to their accelerated migration tool, Skymap™.

AWS DevOps Competency

Enquizit uses traditional DevOps, CloudOps, and SecOps to ensure success by deploying repeatable and automated processes based on a seasoned DevOps framework.

Enquizit has successfully delivered advanced cloud-based solutions for more than a decade at organizations like the Common Application, the Small Business Administration, and the GSA's Login.gov.

"The team at Enquizit was essential to the success of our cloud migration. They helped us build a hybrid cloud environment, migrate servers, and rearchitect services for the cloud. They researched and implemented solutions for problems that we never anticipated—all while being calm, organized, and professional."

Sam Smith
AWS Program Director
The Wharton School of the University of Pennsylvania
