

The background features a dark blue gradient on the left, transitioning into a large, abstract, curved shape on the right. This shape is composed of various shades of purple and blue, with a bright orange-yellow curved line running along its bottom edge. The overall design is modern and dynamic.

# aws SUMMIT

LONDON | 27<sup>TH</sup> APRIL 2022

# Real Time ML inference on Streaming Data workshop

Hemant Sharma ( he/him ), Sr Partner Solution Architect, AWS

Sameer Goel ( he/him ), Sr Partner Solution Architect, AWS

Ahmed Raafat ( he/him ), Sr Solution Architect, AWS

Rajesh Tailor ( he/him ), Sr Partner Solution Architect, AWS

Kunal Arora ( he/him ), Solution Architect, AWS

# Agenda - Real Time ML inference on Streaming Data Workshop

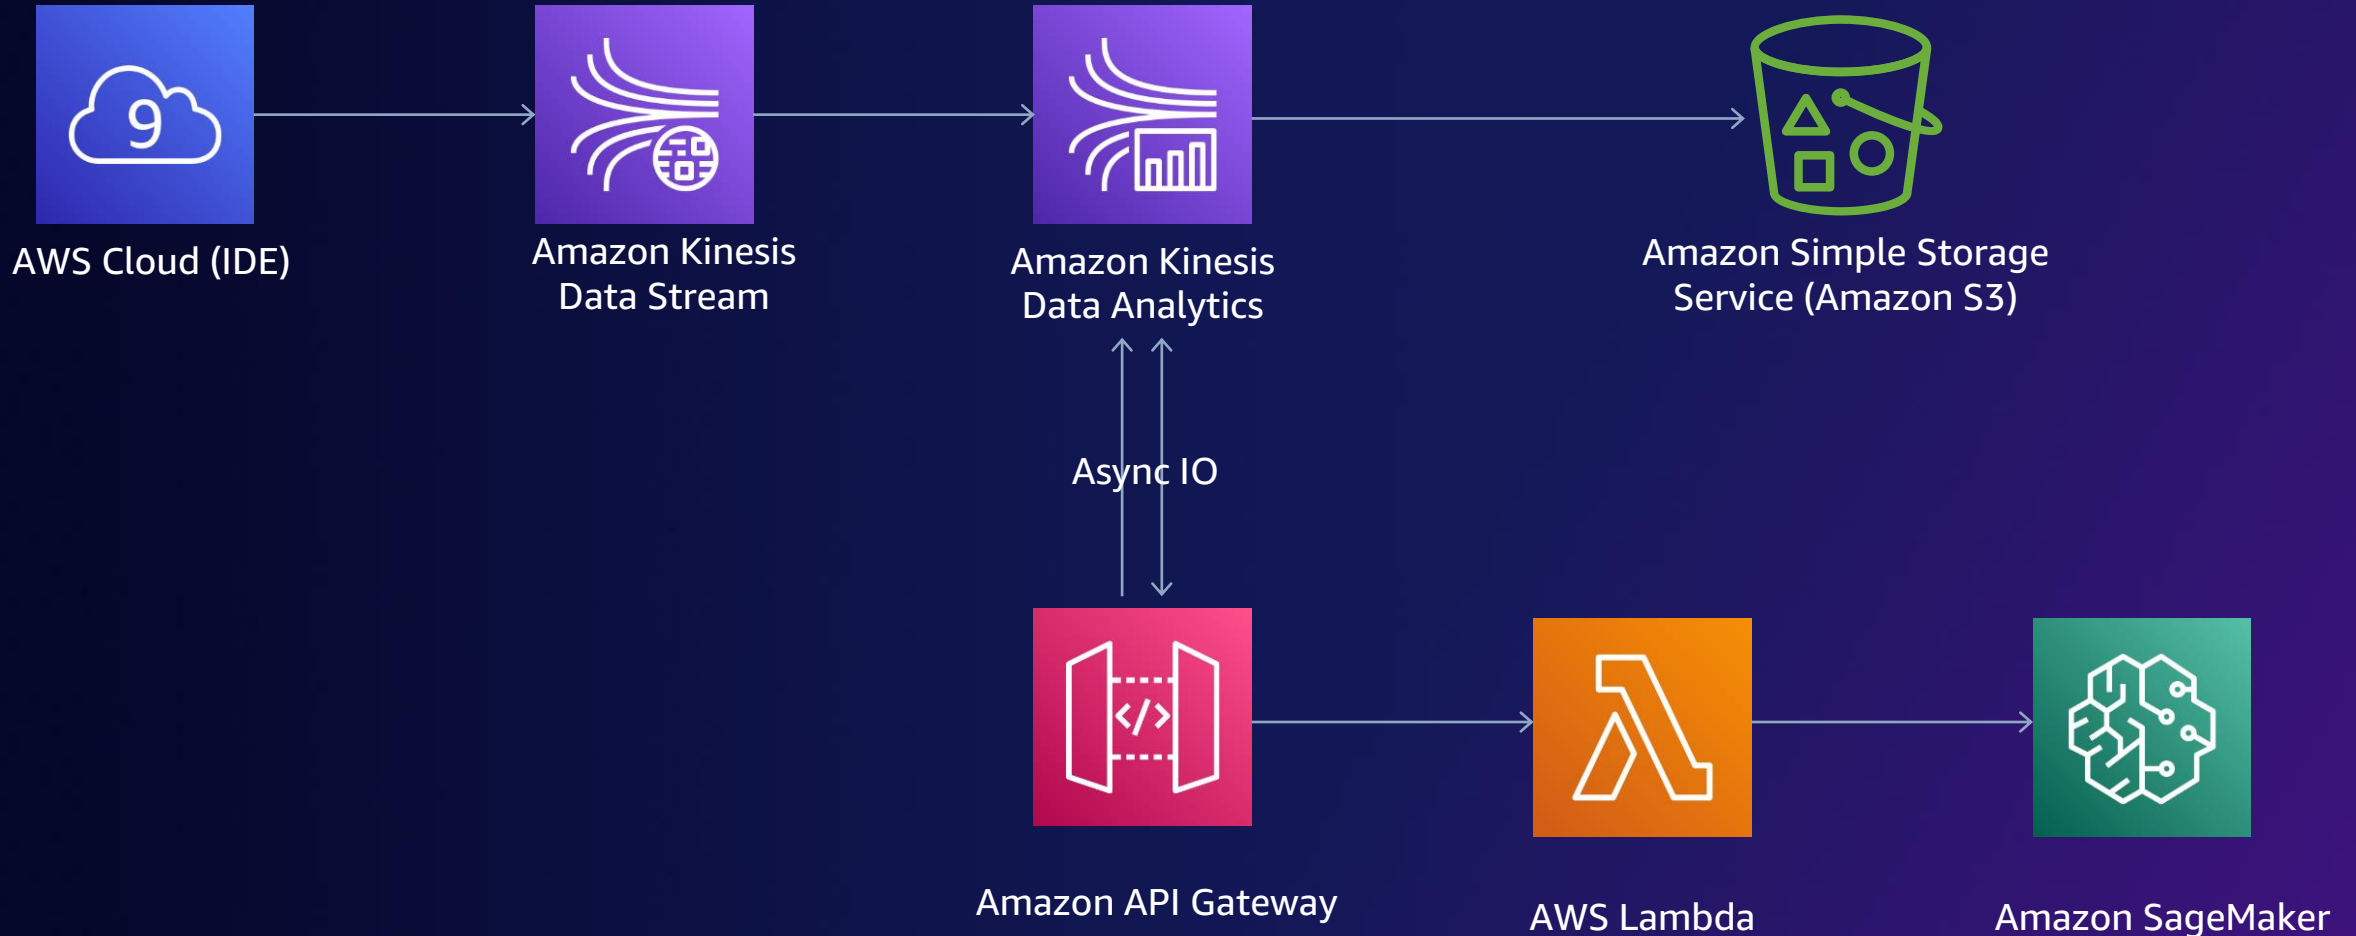

- Use Case – Predict Taxi fare before boarding the taxi
- Architecture for the workshop
- AWS Services Involved
- Have your IDE / text editor ready
- Execute the Lab

# Use Case for the workshop

You will predict the taxi fare in real time for the passenger before passenger boards the taxi, based on many factors like distance covered, date/time of the ride, passenger counts etc. you will do below activities:

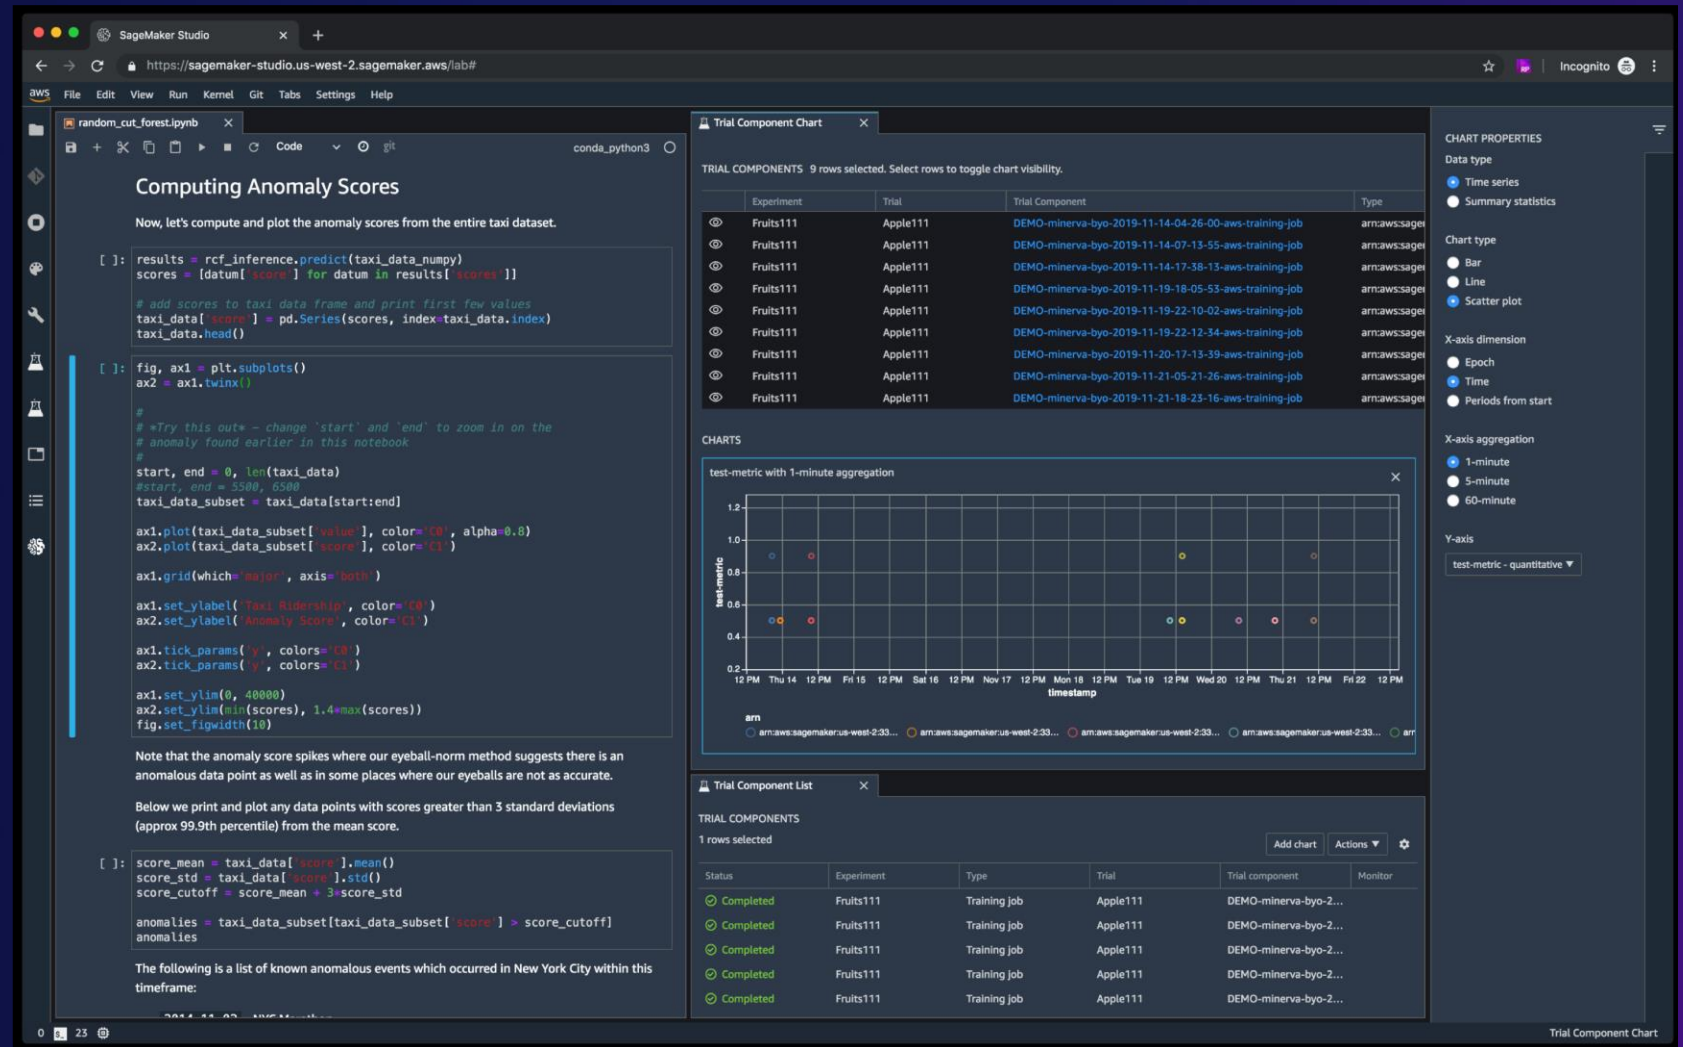

- Train a model (Linear learner algorithm) and deploy the model
- Deploy Amazon API Gateway and AWS Lambda to invoke the model real time endpoint
- Deploy Amazon Kinesis Data analytics application (Apache Flink ) to get ML inference on streaming data
- Deploy Amazon Kinesis Data stream to handle streaming data
- Python data generator script for streaming data generation

# Architecture

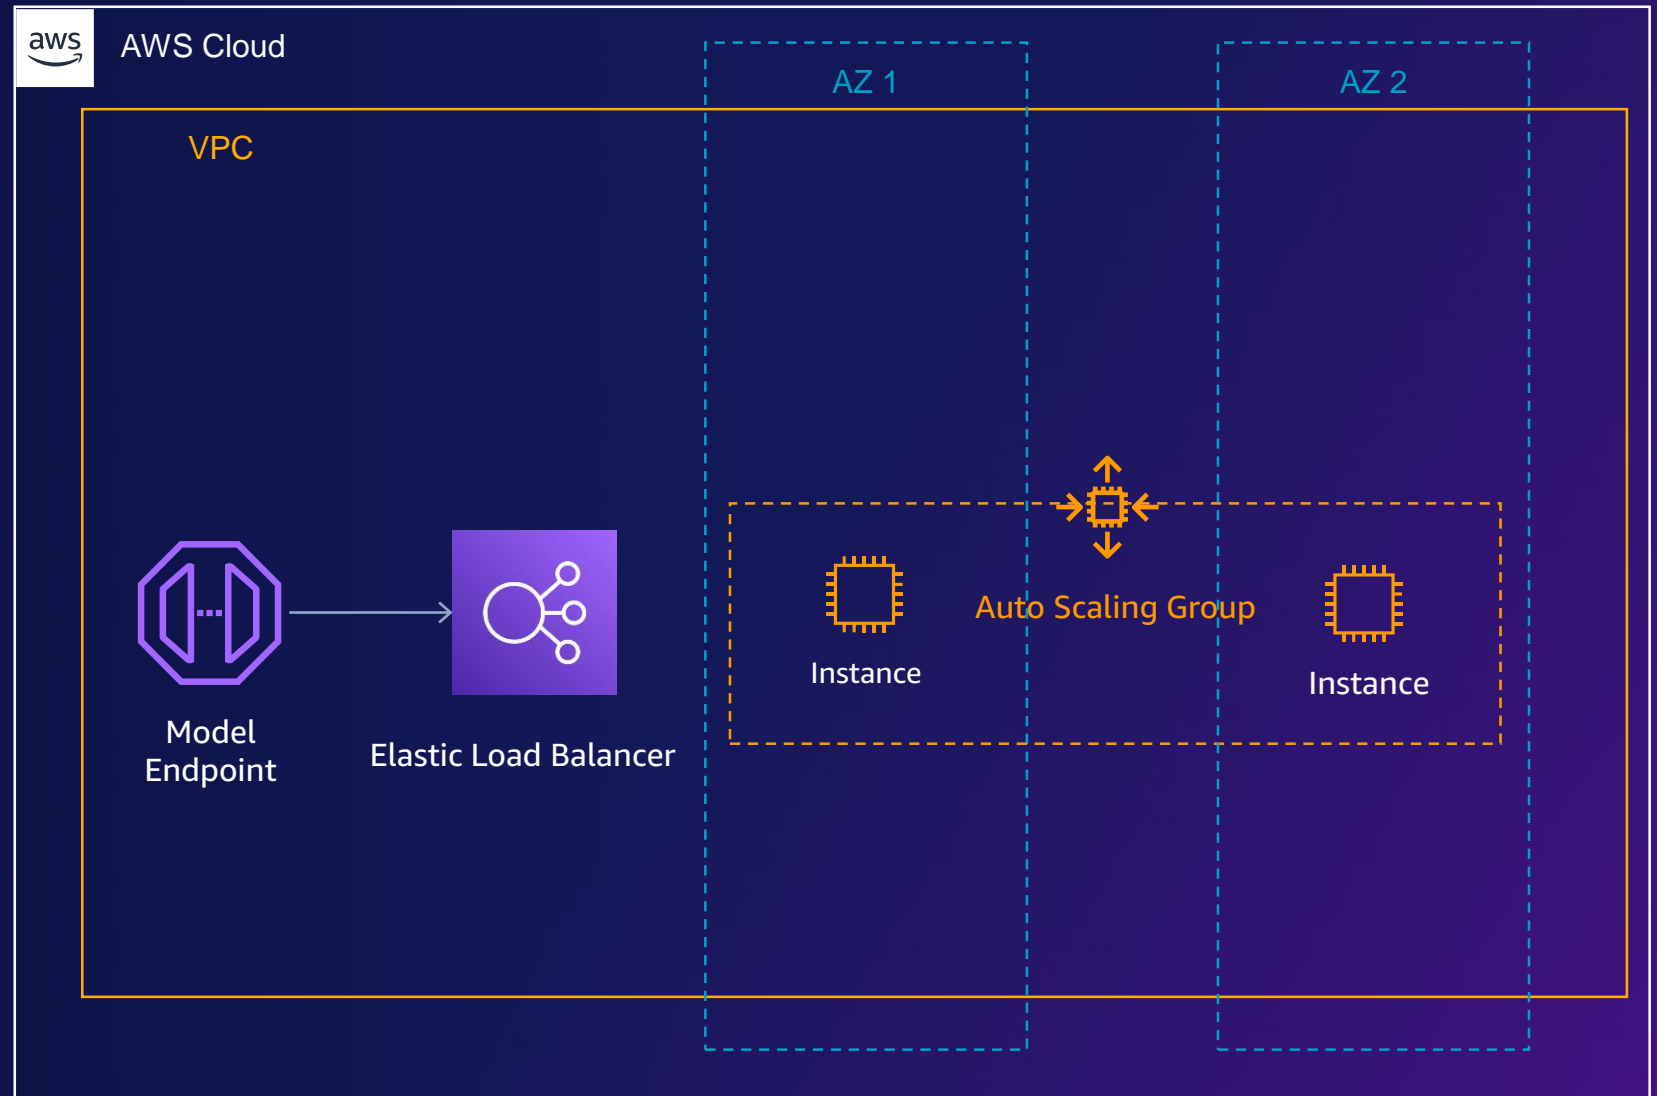

# Amazon Sagemaker

- Train the model using Sagemaker Studio Notebooks

# Amazon Sagemaker

- Deploy the Model using Sagemaker Real Time Hosting Service

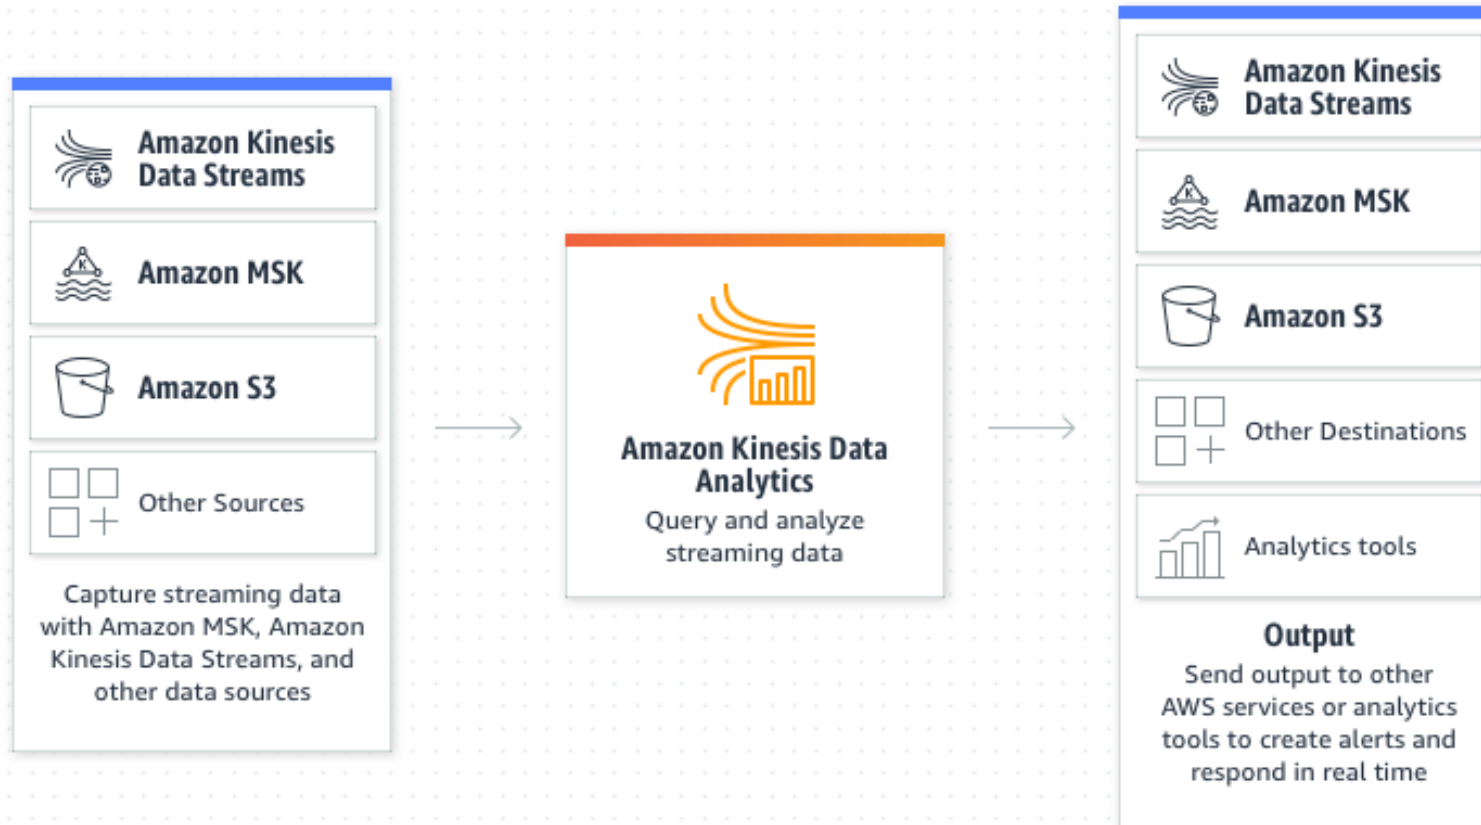

# Kinesis Data Stream

# Kinesis Data Analytics

# Lab Assets

- Amazon Sagemaker Studio Notebook - TaxiFare\_Predict\_Liner\_Learner.ipynb
- AWS Cloud Formation template - APIGW-Lambda.yaml
- Amazon Kinesis Data Analytics Application ( Apache Flink ) -Flink-Async-IO-1.0.jar
- Streaming Data generator python script - data.py

# Learn in-demand AWS Cloud skills

## AWS Skill Builder

Access **500+ free** digital courses and Learning Plans

Explore resources with a variety of skill levels and **16+** languages to meet your learning needs

Deepen your skills with digital learning on demand
