AWS DEEPRACER LEAGUE F1 PROAM EVENT
HEAD-TO-HEAD GRAND PRIX RACE FORMAT RULES

NO PURCHASE OR PAYMENT NECESSARY TO PARTICIPATE.

Each monthly head-to-head race in the AWS DeepRacer League's Virtual Circuit is operated in two stages, qualification and elimination. Throughout each month, racers submit to the leaderboard, racing for the fastest time while evading moving bot cars, and at the end of the month an elimination round decides the winner. The Virtual Circuit are subject to the 2020 AWS DeepRacer League Official Rules.

From May 1 through May 31, 2020, the Virtual Circuit will be part of the AWS DeepRacer League Formula 1 ProAm Event, which features a different elimination round than the general Virtual Circuit. At the end of May, the top 10 racers in the qualifier, per the leaderboard, will race in the first ever 10-lap AWS DeepRacer League Virtual Circuit Grand Prix against the two featured professional F1 drivers. Racer's starting position is determined using their qualifying time and their fastest model will be used in the race. The first racer to cross the finish line will be declared the official winner of the race. The Grand Prix race evaluation will be conducted the week after qualification ends, with results published approximately 10 days after qualification closes. Grand Prix results and race replays will be available at www.deepracerleague.com and in the AWS DeepRacer console.

Eligibility
Racers are subject to the eligibility conditions outlined in the AWS DeepRacer League Official Rules. Additionally, racers that have won prior races in any division of the 2020 AWS DeepRacer League and have therefore already qualified for the AWS DeepRacer Chamionship Cup WILL be eligible to compete in the F1 ProAm Grand Prix. In the event that a winner of a prior race wins the Grand Prix, that participant will be eligible to receive the special F1 ProAm Grand Prize as outlined below, but will not be eligible for the standard AWS DeepRacer League Virtual Circuit first prize as outlined in the 2020 AWS DeepRacer League Official Rules. In the event of this result, the AWS DeepRacer League first prize (in the form of a chance to receive an expenses-paid trip to participate in the AWS DeepRacer League Championships) will be awarded to the fastest racer that has not previously qualified for the AWS DeepRacer League Virtual Circuit first prize in a 2020 race.

Prizing
Grand Prix Grand Prize: Win the chance for an expenses-paid trip to watch the world of Formula 1 in real life at an F1 Grand Prix of your choosing in the upcoming 2020 or 2021 season for you and one guest. Enjoy your experience over the race weekend with F1's premium Paddock Club hospitality, plus a unique tour of the Formula 1 Technology and Media Operations Hub at the event, and meet with Rob Smedley of F1. Prize package includes flights for 2 from the winner's closest international airport to the closest international airport to the F1 Grand Prix of choice, 3 nights' accommodations, 2 Formula 1 Grand Prix Paddock Club passes, meet and greet with Rob Smedley, and applicable taxes. FMV of this prize package is $14,500.00 USD excluding taxes. Tax value to be determined upon confirmation of winning participant's country of legal residence. Prize subject to terms and conditions of 2020 AWS DeepRacer League Official Rules. If the Grand Prix is cancelled or postponed, the event portions of the prize will not be fulfilled and Sponsor will have no further obligation to the winner with respect to the event. Prize expires December 31, 2021. All components of prize not redeemed prior to this date shall be forfeited, and no further obligation to the winner will be required.

Second Prize: All AWS DeepRacer League Virtual Circuit participants that successfully defeat either F1 driver in any racing format (Time Trial, Object Avoidance, and Head-to-Head) are eligible to receive a custom virtual F1 DeepRacer skin as seen in use by the F1 Pros on track in the month of May. Eligible participants will be automatically awarded this digital prize inside the AWS DeepRacer console shortly following the official results announcement of the May Virtual Circuit races. Winners may access the optional virtual F1 AWS DeepRacer skin inside the "My Garage" area of the console. The approximate retail value of this prize is $0 USD.
