Cloud continuum

AWS – DELIVERING CLOUD WHERE YOU NEED IT

© 2022, Amazon Web Services, Inc. or its affiliates. All rights reserved.

AWS Local Zones

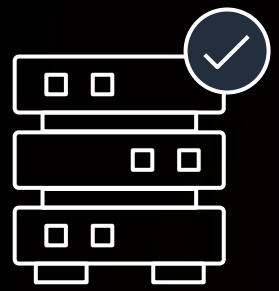

Meet latency, local data processing, and data residency* requirements in more locations, without deploying self-managed infrastructure

- AWS deployed and operated infrastructure in large metro centers
- Elastic, on-demand resources, with pay-as-you-go pricing
- Same AWS core services and developer experience
- Integrated with Region services through the AWS backbone

AWS Outposts rack: Bringing AWS on premises

Same AWS-designed infrastructure as in AWS data centers (built on AWS Nitro System)

Fully managed, monitored, and operated by AWS as if in AWS Regions

Single pane of management in the cloud providing the same APIs and tools as in AWS Regions
