aws marketplace

Use case

Transforming how enterprises worldwide find, subscribe to, deploy, and govern third-party software, data, containers, ML models, and professional services

Software and data you know, love, and trust

Broad selection for app portfolio modernization

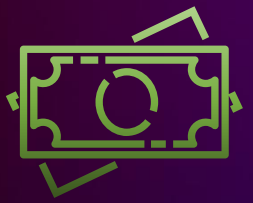

Make transactions and procurement processes easier

Enhance governance and control

Incorporate professional support and expertise

Help optimize IT spend

I'm seeking visibility into my aggregated AWS Marketplace spend across my entire usage of AWS. How can I achieve this visibility so that I can optimize?
