Traditional vs. modern learning

Teacher -centered

Incomplete knowledge

Theoretical

Slow learners

Cripples creative & critical thinking

Certification-focused

Immersive learning experience

Blended learning

Real-time interaction

Multiway collaboration

Staggered working hours

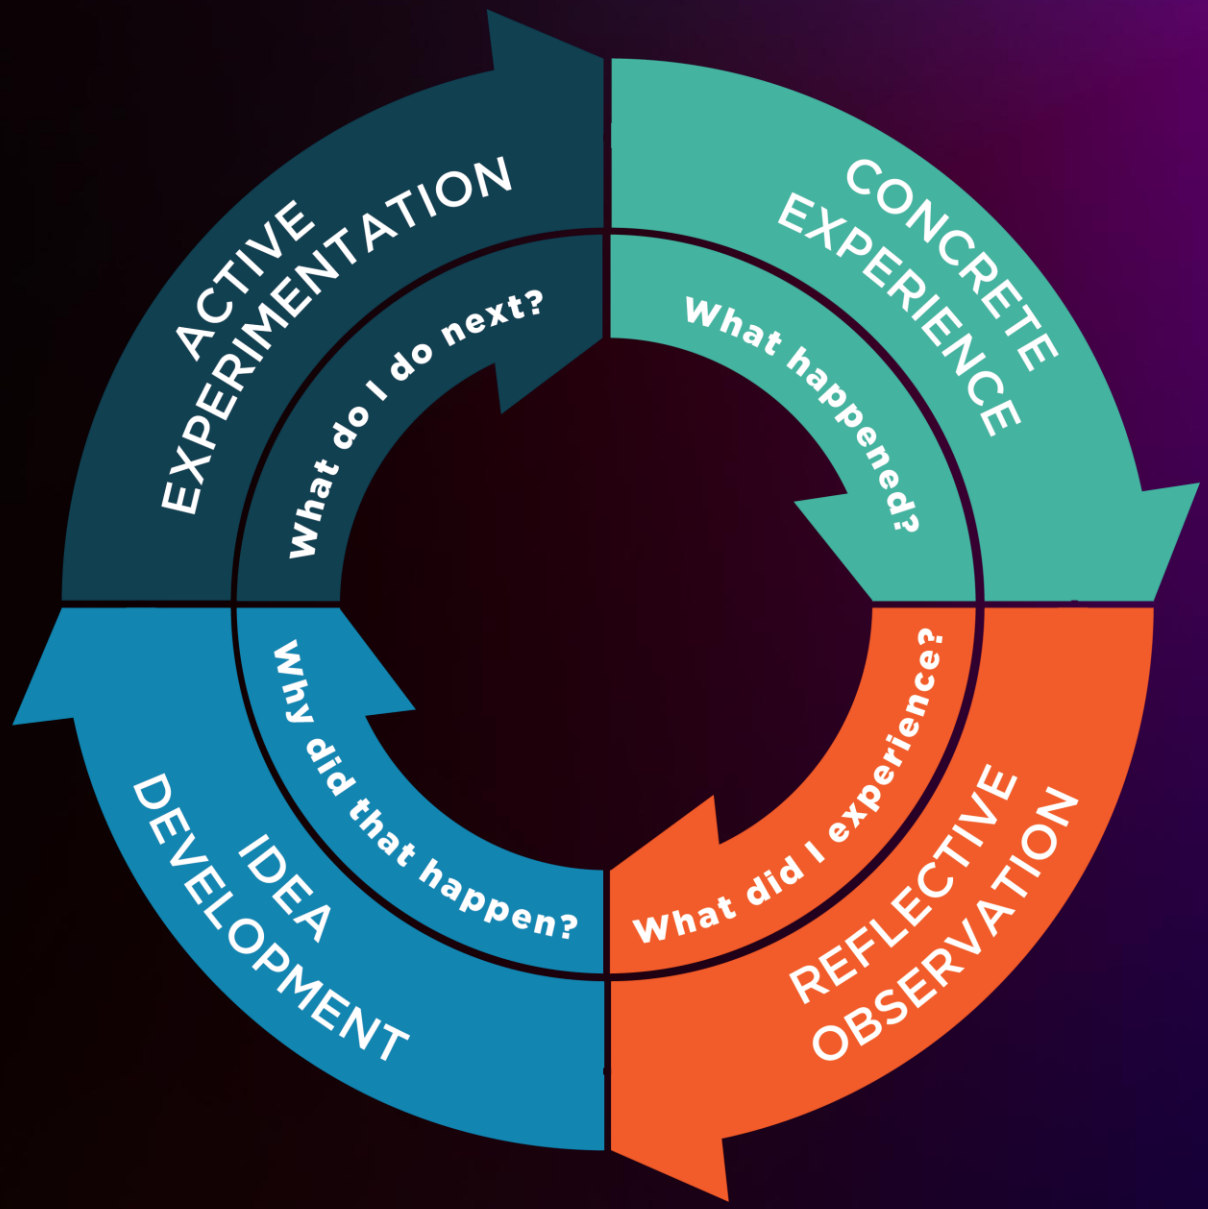

Hypothetical thinking

The methodology

"There are two goals in the experiential learning process. One is to learn the specifics of a particular subject, and the other is to learn about one's own learning process."

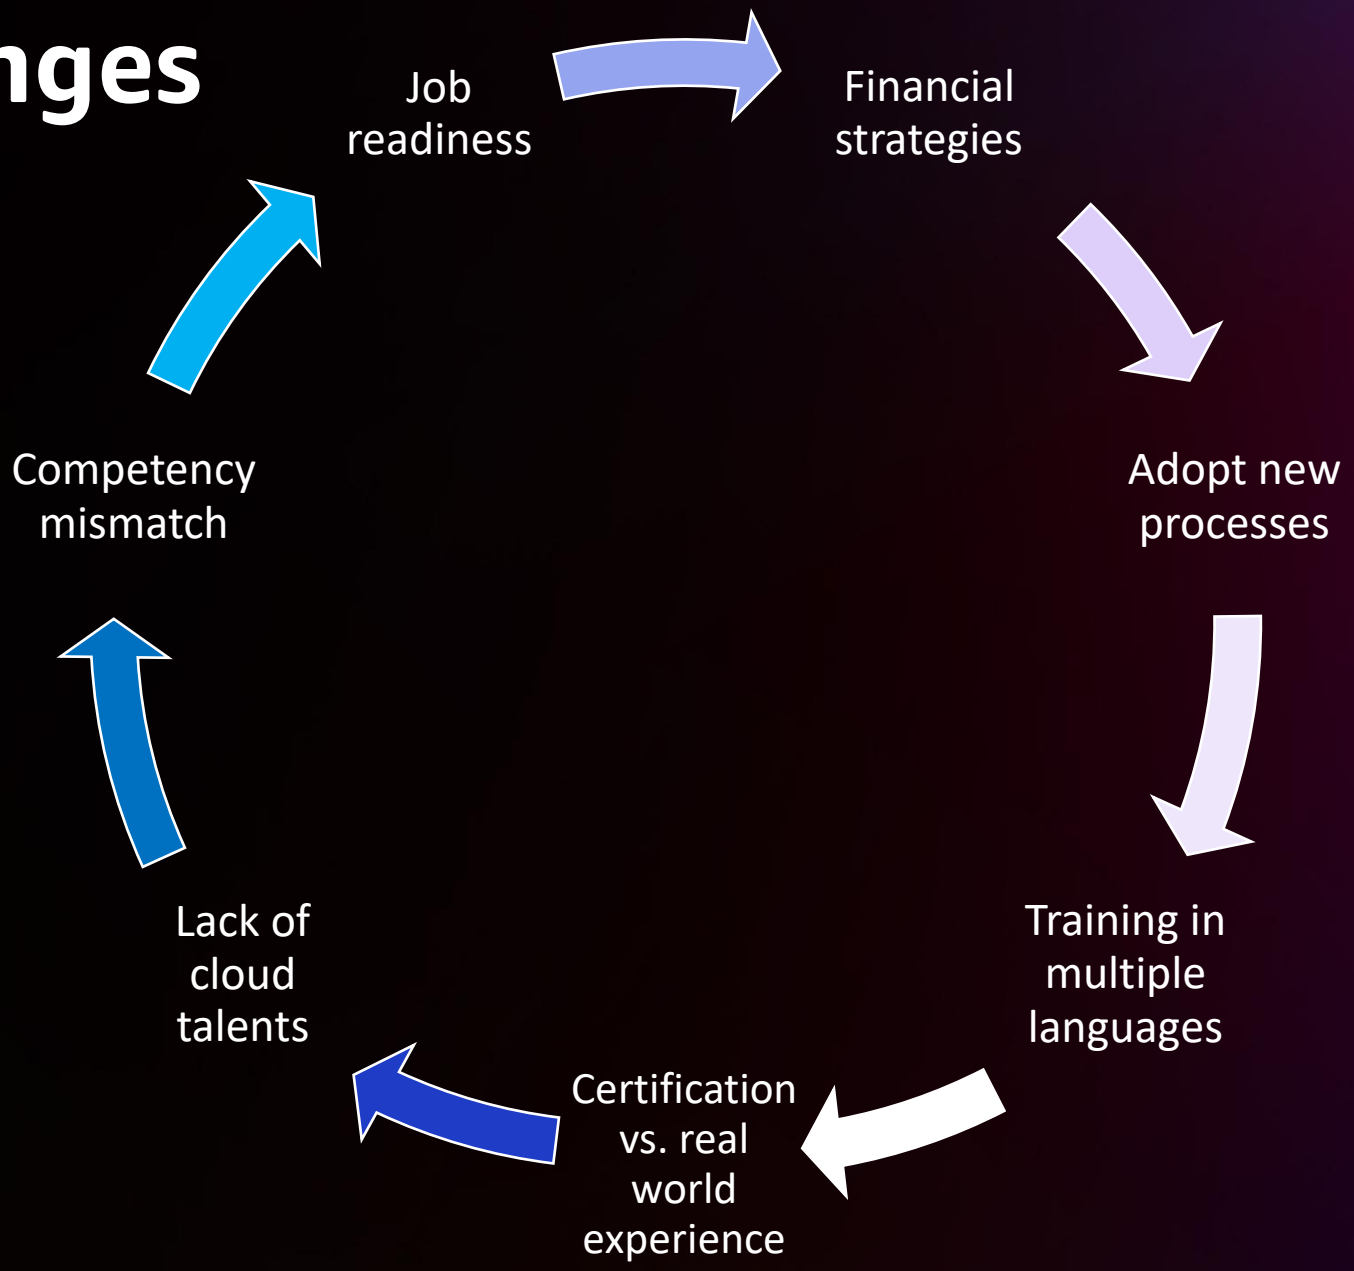

David A. Kolb, Psychologist & Educational Theorist

Experiential learning

A LEARNER'S JOURNEY FROM ENROLLMENT TO CERTIFICATION AND PROJECT-READINESS

8 - Cloud labs + assessments

Project-based, hands-on lab experiences prior to project assignment and final assessment

6 – Cloud labs

Experiential learning project-based, hands-on lab

7 - Assessment

Job readiness assessment

5 – Certification bootcamps

Certification exam mock test scores >70%

3 – ILT/VILT

Hands-on learning & readiness

4 - Certification bootcamps

Post-training assessment & mock exams

2 – eLearning + lab experience

Challenge labs based on e-learning & assessment prior to ILT/VILT

1 – Assessment through LMS

Enrol learners, define learning path & prerequisite e-learning

Our customer profile

- Fortune 500 company
- Leading global provider of audit and assurance, financial advisory & tax
- Over 345,000 employees worldwide

The challenge: new generation learners require flexibility & accessibility

Learning must be consistent, personalized and adapted to the new learning style of learners

The solution: customized and automated learning process

1. Flexible certification includes prerequisite e-learning courses & role-based training plans
2. Periodic assessments, quizzes, capsule learning, & personalized reinforcement sessions
3. Course & user management, learning path, reports, dashboard, fully secured and customized

The benefits: an efficient system

Offers an efficient tool for monitoring, tracking, and reporting. Enables quick turnaround to access in-depth reports, real-time performance dashboards, scorecards to track and monitor learning and skill levels

Success factor – Key takeaways

A NEW GENERATION OF LEARNERS BECOMES PROJECT-READY

Customized cloud hands-on lab environment with role-based access. Cloud certified new learners working on projects in various locations

Designed an experiential learning training program with continuous monitoring of learners, posting scenario-based questions with regular tests, and evaluations
