Agenda

- The history of shift left
- Where it went wrong
- How to empower our best employees going forward

AGENDA

Shift left

Involve testing teams earlier in the SDLC process and think about testing at all stages of the process

Shift left became overused

Now referenced in all technology disciplines such as security, deployment, DevOps, FinOps, etc.

The current state of SDLC

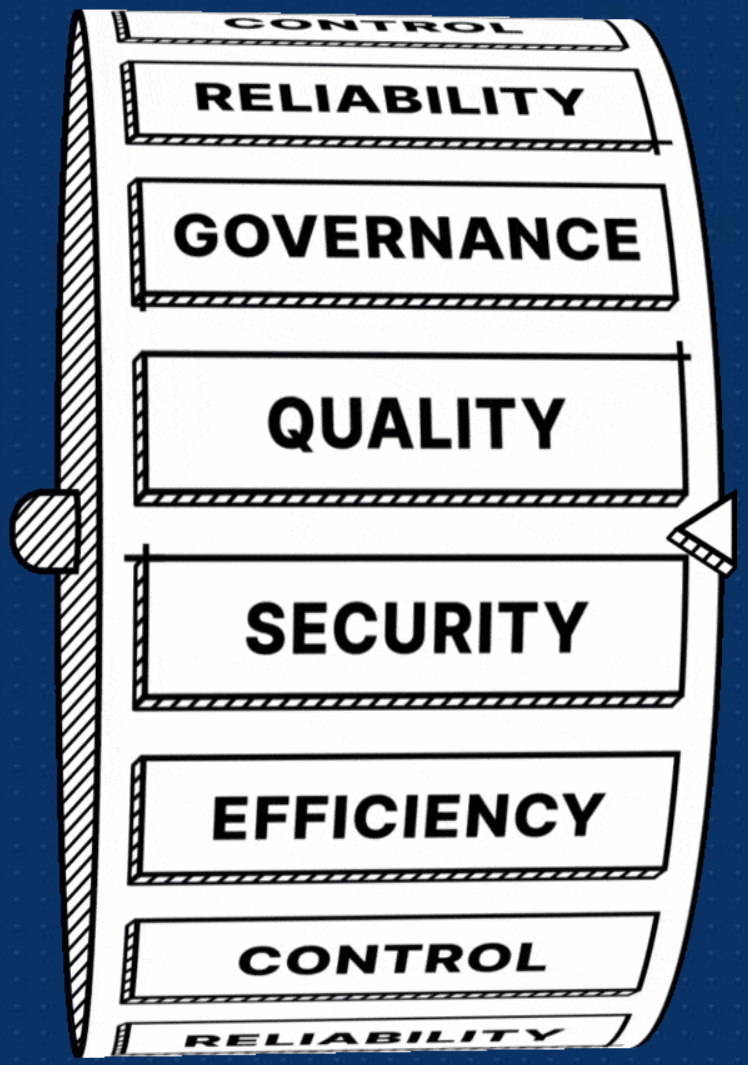

We shifted the workload, not the information

The current state of SDLC

Shifting information left enables teams to deliver **innovation velocity** without sacrificing . . .
