Agenda

- End user computing overview
- Introducing Elastic fleets
- Introducing Amazon WorkSpaces Web
- Whiteboarding and Q&A

© 2021, Amazon Web Services, Inc. or its affiliates. All rights reserved.

The challenge for empowering the modern workforce

More **distributed** and **flexible** workforce

Need to improve **productivity** while reducing **cost**

while raising the bar on **security** and **reliability**

EUC services

Amazon WorkSpaces

Cloud-centered persistent desktops

Amazon AppStream 2.0

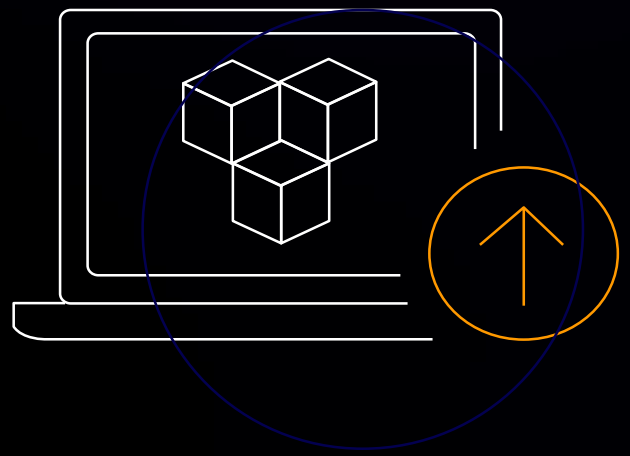

Cloud-focused non-persistent apps and desktops

Mission

Deliver the ability to securely get work done from anywhere, from any device

© 2021, Amazon Web Services, Inc. or its affiliates. All rights reserved.

Introducing Elastic Fleets and Linux Support

amazon AppStream 2.0

© 2021, Amazon Web Services, Inc. or its affiliates. All rights reserved.

Mission

Deliver the ability to securely get work done from anywhere, from any device

© 2021, Amazon Web Services, Inc. or its affiliates. All rights reserved.

Challenges

Secure browser traffic, enabling only the access users need to be productive

Existing solutions are overly complicated, overly permissive, or both, for users who just need browser-based access

Existing solutions can be high in cost and unpredictably priced

They can come with high costs, complex operations, upfront contracts that restrict agility, and usage that can be challenging to forecast

aws

“Many of our users just need access to a handful of websites in order to be productive.”

Ervin Sala

VP of IT, Centerfield Corporation

Introducing Amazon WorkSpaces Web

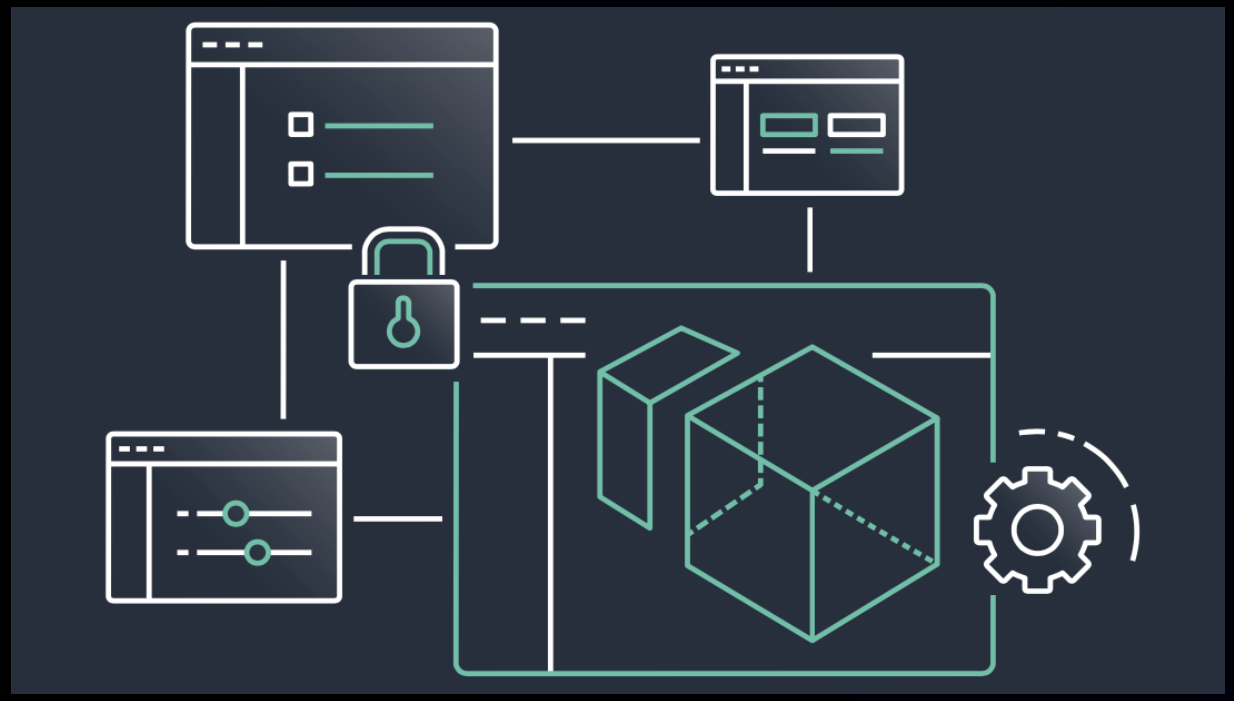

New browser-based WorkSpaces built specifically to facilitate secure, web-based workloads

Fully managed, predictably priced, **with enterprise controls**

© 2021, Amazon Web Services, Inc. or its affiliates. All rights reserved.

WorkSpaces Web use cases

Secure browser-based productivity environments

Secure browsing for users who just need access to internal websites and SaaS web applications

Safe web browsing from high security networks

Enable safe browsing on the public internet with an effective barrier against attacks packaged in web content

Light-weight bring-your-own-device (BYOD) browser-based access

Simple, secure, and isolated

aws

Users

Frontline users

Back office

Factory and field

SaaS-first remote workers

Contractors, contingent workers, and partners

Safe web browsing from locked down network

© 2021, Amazon Web Services, Inc. or its affiliates. All rights reserved.

WorkSpaces Web benefits

Secure browser traffic

Company data never resides on remote devices

On like a light switch

On demand, automatically provisioned and updated

Cost optimization

Low cost, predictably priced, with no upfront commitments or contracts

© 2021, Amazon Web Services, Inc. or its affiliates. All rights reserved.

Pricing and availability

ABOUT PRICING…

$7/monthly active user for up to 200 hours of streaming*

Available in the Northern Virginia, Oregon, and Dublin Regions

*Streaming hours above 200 are available for $0.035 per hour
