Advanced end-to-end SAP on AWS Testing with Tricentis Tosca Consulting Offer

Harden Your Upgrades and Management of SAP S/4 HANA on AWS

Tricentis Continuous Testing Platform to ensure the flawless performance of SAP S/4 systems on AWS and delivers compelling user experiences that drive a culture of rapid innovation.

Benefits

- Reduced time and cost of migration to SAP S/4HANA on AWS
- Defects exposed when they were fastest and least costly to remediate
- Improved time to value, performance, and business process integrity for SAP workloads on AWS
- Accelerated Innovation with increased release frequency

Customer contribution

- Worked hand-in-hand with Tricentis' Professional Services group to transform people and processes as well as technologies
- Participated in risk assessment so the top business risks could be covered as efficiently as possible
- Provided detailed architecture of both business systems (SAP S/4HANA, BI) and supporting systems to help Tricentis craft a strategy that supported their complete business processes—and seamlessly integrated into their DevOps pipeline

Key activities

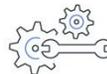

Baselined and recorded tests in their on-premise SAP ECC environment which they then reused for SAP S/4HANA testing

Conducted Continuous Load Testing for SAP S/4HANA at both the UI (Fiori) and API layers

Used Tricentis Test Data Management to provide on-demand access to volume, range, and complexity of test data required for continuous testing

Leveraged Tricentis' SAP S/4HANA Accelerator package, which provided pre-packaged "automation templates" for 350+ of the most common SAP Fiori applications

Limited Time Offer

Sign-up for a trial of Tricentis Tosca by June 30th to receive a free two-week trial of Tricentis Tosca and 50 free node hours of Tricentis Flood. If your team proceeds with a purchase, Tricentis will include S/4 Hana accelerator packages at no additional costs. To qualify, please mention the code "Tricentis@Sapphire."

Solution Space

Discover scalable and secure solutions that will empower you to achieve your business needs with Amazon Web Services (AWS) and AWS Partner Network (APN) Partners that have attained AWS Competency designations. Customer ready solutions are based on architectures validated by AWS, include a combination of AWS services and APN Partner technologies, can be deployed quickly with solution accelerators like AWS Quick Starts, and feature optional consulting offerings provided by APN Partners, to accelerate your cloud transformation.
