it.lifesciences^{BP} – SAP S/4HANA on AWS Implementation Accelerator for the Life Science Industry

Consulting Offer

Our Integrated Best Practice S/4HANA Business Solution it.lifesciences^{BP} on AWS

Do you believe, SAP S/4HANA cannot satisfy your pharmaceuticals industry process specialties? Do you think process adoption could be an unpredictable adventure? We extended the powerful standard functionality of SAP S/4HANA with pharmaceuticals-specific modules for purchasing, planning and production, as well as for plant-maintenance, sales, management and quality control of the entire value chain.

Benefits

- Complement the SAP S/4HANA solution covering all standard processes with pharmaceuticals-specific modules
- Take advantage from our powerful project implementation method based on GAMP 5 documentation
- Get concrete results within 9-12 months project implementation time
- Benefit from more than 30 years of experience working with pharmaceuticals companies

Customer contribution

- We know SAP S/4HANA, you know your pain points – Share your main current process and system issues with us
- We provide the platform, you have the data – Your contribution is your master data and backend integration
- As-is and To-be – We know where you can go, but at some points you have to decide between options. Your project support is required.

Key activities

Automatic deployment of an SAP S/4HANA system environment on AWS for immediate availability of your SAP project platform

Complete process and system implementation leveraging our industry experience and best practices guideline

Implementation and customization of more than 300 industry specific processes

Verification tests and accurate go-live preparation for a smooth platform startup phase

Solution Space

Discover scalable and secure solutions that will empower you to achieve your business needs with Amazon Web Services (AWS) and AWS Partner Network (APN) Partners that have attained AWS Competency designations. Customer ready solutions are based on architectures validated by AWS, include a combination of AWS services and APN Partner technologies, can be deployed quickly with solution accelerators like AWS Quick Starts, and feature optional consulting offerings provided by APN Partners, to accelerate your cloud transformation.
