Experience Our Integrated Best Practice S/4HANA Business Solution it.lifesciences^{BP}

itelligence AG is an AWS SAP Competency Partner.

Industry trends & challenges

Pharmaceutical companies have a lot to take care of. Production control, formula management, warehousing, and logistics have to be coordinated throughout the enterprise. At the same time, these companies need to adhere to increasingly strict compliance regulations. Growing competition and rising customer expectations are compelling to reduce inventory management costs and optimize lead times.

itelligence helps pharmaceutical companies leverage digital technologies and capabilities to solve the challenges unique to the industry.

The it.lifesciences^{BP} solution

Our itelligence it.lifesciences^{BP} Best Practice solution for SAP S/4HANA solution covers all standard financial, commercial, manufacturing, and logistical processes. This powerful standard functionality is complemented with pharmaceutical-specific modules for purchasing, planning and production, as well as for plant maintenance, sales, management, and quality control of the entire value chain. Because it.lifesciences^{BP} is based on the latest SAP S/4HANA platform, it allows pharmaceutical companies to efficiently operate in a competitive market that is getting increasingly regulated.
